

B.A. History, Geography & Politics(HGP)
Programme Specific Outcomes(PSOs)

1. Graduates will be able to explain physical processes and their spatial distribution on the Earth's surface, including landforms, climate, soils, vegetation, and hydrology.
2. Graduates will be able to distinguish and classify human characteristics, human activities and processes, and interpret their spatial distribution on the Earth's surface including the composition of population, cultural complexes, economic interdependence, settlement and political patterns.
3. Graduates will identify and critically analyze patterns of human-environment interactions, including perception, distribution and use of natural resources.
4. Graduates will recognize and explain the critical importance of location, proximity, and pattern in cause and effect relationships and be able to critically analyze those relationships through geospatial techniques.
5. Graduates will design maps to analyze and interpret patterns of physical and human characteristics on the Earth's surface and apply geospatial tools to appraise real-world problems.
6. Graduates will be able to explain principles and tools of geographic information science including cartography, remote sensing, and geographic information systems.
7. Graduates will be able to explain principles and tools of geographic information science including cartography, remote sensing, and geographic information systems.
8. Graduates will be able to synthesize, critically evaluate and present geographic information that addresses human-environmental problems in written and oral form.
9. Articulate the theories, philosophies, and concepts in the discipline of geography, including unifying themes of spatial patterns and structures, the interrelationship between people and places, and the interactions between nature and society.
10. Identify and assess how geographic concepts apply in the workplace and in everyday life to solve real-world problems.
