B.Sc. Mathematics, Chemistry & Computer Science(MCCS)

Programme Specific Outcomes(PSOs)

PSO 1: Ability to apply knowledge of computing that may be relevant and appropriate to the domain.

PSO2: Ability to analyze a problem, identify and define the computing requirements, which may be appropriate to its solution.

PSO 3: Understanding of best practices and standards to develop user interactive and abstract application. An ability to assist and manage the execution of an effective project plan.

PSO4: Ability to interlink the skills and knowledge in mathematics, physics and chemistry and develop an aptitude to address the problems in various fields.

PSO5: Analyse the concepts of mathematics, physics and chemistry and understand the relation among them like physical chemistry, mathematical modelling of physics and chemistry problems.

PSO6: Understand the theoretical concepts of physical and chemical properties of materials and the role of mathematics in dealing with them in a quantitative way.
