

B.Sc. Zoology, Chemistry, Aquaculture (Z.C.A)
Programme Specific Outcomes(PSOs)

PSO1: The student will acquire an understanding of the biology of different types of aquaculture products (fish / molluscs etc.)

PSO2: To know the basis of technologies of fisheries and *aquaculture*, to understand the principles of its importance, purpose and application.

PSO3: Students will understand and adapt scientific knowledge in aquaculture and natural resource conservation planning and development.

PSO4: Recognize and apply the principles of atomic and molecular structure to predict chemical properties and chemical reactivity.

PSO5: To understand about various animal species, based on Phylum.

PSO6: Get an exposure to different process used in industries and their application.

PSO7: Recognize and apply the principles of atomic and molecular structure to predict chemical properties and chemical reactivity.
