Introduction

A GD is a methodology used by an organization to gauge whether the candidate has certain personality traits and/or skills that it desires in its members. In this methodology, the group of candidates is given a topic or a situation, given a few minutes to think about the same, and then asked to discuss it among themselves for 15-20 minutes. In fact, it helps to shortlist candidates for the final interview. It is considerably different from Public Speaking, a general Debate, and an Interview.

Public Speaking: Here the audience merely judges a speaker without competing with him. It listens to what the speaker says but does not discuss the subject simultaneously with the speaker.

Debate: A chairman presides over a debate, giving it a shape and direction. The Speakers are normally divided in two groups-One speaking for the motion and the other speaking against the motion.
