

## **B.Sc. Botany, Zoology & Chemistry(BZC)**

### **Programme Specific Outcomes(PSOs)**

**PSO 1:** Understand The program Botany, Zoology and chemistry has been introduced to prepare the students for a career which finds application and provides solution to some of the major contemporary problems on the globe i.e., providing food for growing population, designing advanced medical treatment options for increasing evolving diseases, to find solution to deteriorating environment caused due to over exploitation / misuse of natural resources etc.,

**PSO 2:** In this program the study of Biology offers around the world there are biologists making a difference to our lives – ensuring our food is safe, treating and preventing diseases, developing green technologies or tracking the role of organisms in climate change.

**PSO 3:** In this program the knowledge about the subject chemistry come in to play when structures of macromolecules and their interactive relations to the environment are to be understood.
