### Awareness Programme on LinkedIn Learning Courses for Enhancing Professional Skills on 25-08-2022

An Awareness Programme on LinkedIn Learning Courses was organised jointly by Aanvik-The Electronics Society and Centre for Digital Learning and Innovation on 25th August 2022. The purpose of the program was to create awareness about the benefits of LinkedIn Learning courses and how they can help individuals enhance their skills and stay competitive in the job market.

The program was conducted in the form of a Seminar and lasted for Two hours. Mr. Vinaya Phaneendhra K, Assistant Professor in Electronics acted as the Instructor and delivered the presentation. The program covered the following topics:

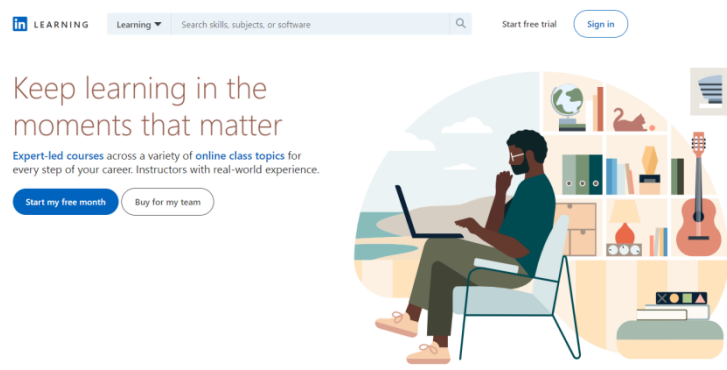

- ✚ An introduction to LinkedIn Learning courses.

- ✚ The benefits of LinkedIn Learning courses for Students

- ✚ The various courses available on LinkedIn Learning.

- ✚ How to sign up and access LinkedIn Learning courses.

- ✚ Tips for making the most of LinkedIn Learning courses.

The program was attended by 54 participants, including B.Sc. & BCA students. The participants were engaged throughout the program and actively participated in the Q&A session at the end. The feedback received from the participants was overwhelmingly positive, with many expressing their interest in signing up for LinkedIn Learning courses after attending the program.

**Active participation of Students during the session and asking questions about how to sign up for LinkedIn Learning Courses and how to make the most of them**
