Sri Y N College(Autonomous) – Narsapur

Seminar on Nanoelectronics- Current & Future Trends held on 04-10-2019

The Department of Electronics & Aanvik- The Electronics Society jointly organised a Seminar on Nanoelectronics - Current & Future Trends on 4th October, 2019. The Seminar aimed to provide participants with an understanding of the latest trends in Nanoelectronics and its potential impact on the future of echnology.

Dr. K Pratap, Assistant Professor at the Centre for Advanced Studies in Electronics Science & Technology(CASEST), University of Hyderabad, was the guest speaker at the Seminar. He delivered an engaging and informative presentation on the current state of Nanoelectronics research, its potential applications, and the challenges faced in the field.

The Seminar was attended by students, faculty members from various departments. Dr. Pratap's presentation generated a lot of interest and enthusiasm among the attendees, who actively participated in the Q&A session that followed. Participants had the opportunity to interact with Dr. Pratap and clarify their doubts and queries regarding Nanoelectronics.

The Seminar on Nanoelectronics - Current & Future Trends was a great success, providing valuable insights into the latest developments in the field and the potential impact of Nanoelectronics on the future of technology. The Department of Electronics & Aanvik- The Electronics Society at Sri Y N College(Autonomous) is committed to organizing such informative Seminars in the future to keep its students and faculty members up-to-date on the latest advancements in the field of Electronics.

Dr. K. Pratap, Assistant Professor at the Centre for Advanced Studies in Electronics Science & Technology(CASEST), University of Hyderabad, delivering an insightful presentation on Nanoelectronics and its potential impact on the future of technology.

Active Participation of Students and Faculty members from various departments to learn about the latest trends in Nanoelectronics and its potential impact on the future of technology during the Seminar.
